Ms. Wendy L. Davis
P.O. Box 143
Ticonderoga, New York 12883

Dear Wendy:

SePRO Corporation recently received a request by William Kral that they provide assistance in the use of Sonar* in Eagle Lake. By way of this letter, I want to assure you and the Eagle Lake Properties Owners Inc. that SePRO will provide the needed technical assistance. Specifically, SePRO will:

1. Assist as a resource in the preparation of the necessary permits for DEC,
2. Provide an estimate of the cost of the Sonar treatment for Eagle Lake, and
3. Provide assistance in defining the expectations of the performance of Sonar in the year of treatment and year following.

Mr. Bill Culpepper and myself have discussed this matter with Dr. Doug Pullman and he should be in contact with you in the near future. It is SePRO's intent to help you and the Eagle Lake Property Owners, Inc. demonstrate that Sonar is an effective tool to restore Eagle Lake to its condition before the invasion of the exotic, Eurasian Watermilfoil.

Please call if you have questions. My telephone number is 317-580-8281.

Sincerely,

A handwritten signature in cursive script, appearing to read "Steve Cockreham".

Steve Cockreham, Ph.D.
Director of Research and Regulatory Affairs
