Mr. Richard Jarvis, et. al.:

The Board for Eagle Lake Property Owners, Inc., as an interested party to the control of Eurasian Milford, strongly supports Lake George Association in its application for use of Sonar for Eurasian Milfoil management.

As many of you at the APA know, Eagle Lake is faced with the same problem where milfoil has taken over many acres of the lake and is suffocating native aquatic vegetation. Our extensive studies of available means for management of milfoil has convinced us that Sonar is the only effective means for control of large infestations of milfoil.

Sincerely,

Rolf Tiedemann, President
