

# Guest Speaker Scheduled

Pesticide and Permitting specialist John Bennett, NYS DEC Region 5 Warrensburg, will be joining the ELPOI members and Eagle Lake residents at their July 9<sup>th</sup> 2011 Annual meeting. The time from 11:30 am till 12:30 pm has been set aside to provide updates on the end of the Invasive Species Grant contract report and to provide time for Johns' presentation related to milfoil and the integrated control including the use of Renovate in site specific locations. A question and answer time will be provided. John has been a long time assistant to and advocate for control of milfoil on Eagle Lake. John works cooperatively with the APA in the permitting of various projects in the region including Lake Luzern's 2010 herbicide application.

All lake residents are welcome to attend. So that adequate seating for the meeting can be provided and to provide John with a rough head count for any handouts he may provide, a courtesy call or Email to one of the contacts below indicating your interest in attending with a head count would be appreciated. You are welcome without this also.
