Hi

We went to camp for the day and much to our surprise, there had been a small forest fire directly across from our driveway. According to Shyla Granger, a tree fell in the windstorm last Thursday and took down a power line. It sparked the fire that took 4 hours to put out. Luckily it did not cross 74 or go as far as the Antique store or west towards Bill Armeno's house.

It was a beautiful day up there today. Kate didn't feel like going up on her day off. Chris was working and Bryan comes home tomorrow.

There are 2 public hearings regarding boat washing coming up. One will be in Lake George; the other at the Best Western in Ti.

The Canadian Geese are back. We saw 2 "couples"; one had a trail of goslings.

Hope all is well.
Deb and Jack
