Keith Scherer

Cathy Capezzuti

Joe Giordano

Just had a nice conversation with Bob. He and I are all set and agree to continue working on this as we go forward.

Looks like we are as far as we can go before the Thursday's presentation

We are up against physical time limits and the policy of the State Master Plan as it is written

Thanks again to you and Senator Little for all of your help, also thanks to the rest of your staff for the effort they put in to the proposed changes to the UMP, it is truly appreciated more than I have expressed during our communications.

Deb, it has been a pleasure talking to you for the first time on this issue, your taking the time with me to get to know the facts and the ELPOI members concerns has been truly appreciated. My gratitude and thanks are also extended to the Assembly Person Stec as well as the rest of your staff.

Joe, it was truly a pleasure, and very special, that you took the time to reach out to me a few weeks back to hear what the concerns were that were associated with the proposed changes at the boat launch and Crown Point bay area were, and how they would affect our community. I think we can work for now with what is proposed in the redline version of the UMP.

There are and always will be more things that can or could be added, we are hopeful that as we move forward that we will be directly and proactively included in the process.

Attached is a document to consider for further dialog.

As noted in the document that this document is ONLY a frame work and requires voice conversation to bring full mean to its contents.

I looking forward to hearing from you after Thursday's meeting.

Rolf
