newsflash

I just hit the send button to send you the ELPOI Winter 2022 newsletter and poof the following 2 news items arrived in my inbox.

Also see the image Steve attached of todays snow at the end.

1. Warren County / Post Star article on using de-icing equipment

https://poststar.com/news/local/de-icing-tips-from-warren-county/article_de94ca0c-7cae-11ed-84ee-8736558ca709.html

2. News from Steve Phelps via the Chilson VFD on winter work on Rt. 74 Culvert.

Good Morning.

I am the NYSDOT Engineer-In-Charge of Project D264836 Replacement of Culvert with new Bridge: Route 74 Over Eagle Lake Channel, Town of Ticonderoga, Essex County. We will be working on the Causeway in Eagle Lake off and on for the next few weeks continuing the preparations for replacing the old culvert located in the Causeway. The work this winter will be done using alternating single lane closures controlled by Flagging and Temporary Traffic Signals. Once the contractor has accomplished what needs to be done this winter we will shut down until next spring. Weather permitting will start up again in March or early April 2023. In May 2023 Route 74 in Eagle Lake will be closed for one weekend and traffic will detoured, from Friday at 6pm to Monday 6am so the contractor can remove the old culvert and install the new bridge. I will send out more information on the detour and the dates the road will be closed next spring.

If you have any questions or comments please contact me either by email or phone.

Thank You

Larry
