May 14*

My dear Mr. Luthy,

Am enclosing a copy of a letter to Peter Flint in regard to Dam at Eagle Lake. He called me up on the phone yesterday & said that "you" would like to have him start the suit in the name of a resident of New York State. He said the (association) would back it up as you can see by my letter to him. Of course the authority given him is only to compel the restoring of the old dam pending settlement of the question.

If you do not approve of this course kind of let me know at once as the cost up to this time would be small and then the family could personally decide what to do. My father is just about the same as when I last wrote you tho possibly somewhat feebler. Part of the family goes to Eagle Lake via Albany boat on June 3<sup>rd</sup> while my mother,

~~Mr~~ + myself leave N. Y. by train on  
We are having splendid weather just now  
and hope the family finds it this way at  
Eagle Lake on their arrival.

With best regards to Mrs. Lushy + Yourself  
I remain Sincerely Yours

Albert Dunge.
