Dictated 6/2/69

Mr. Clifford D. Tobin
26 Gaspen Court
Albany, New York

Dear Cliff,

I have just been tipped off that Bud Stubing withdrew his application for permission to make the fill as originally planned but that he has now reactivated the application and that a hearing will be scheduled for early in July.

All those who have written in opposing the application will receive notice of the hearing.

As soon as I receive notice of the date and place and time for the hearing, I will let you know so that you can advise all members of the Association.

I think that as many as possible of the property owners on Eagle Lake should appear at the hearing and oppose the granting of the permit as he originally asked for it.

For your information, Stubing does now own the property in question. He did not own it at the time that he applied for the permit originally. His deed was dated March 3, 1969 and recorded in the County Clerk's Office on March 24, 1969. His application is dated January 16, 1969.

Sincerely yours,

Sheldon F. Wickes
