Honorable Sheldon F. Wickes  
County Judge  
Essex County Court Chambers  
Community Building  
Ticonderoga, New York 12883

Dear Sir:

Re: Application No. 5-4-69  
Harland H. Stubing

Thank you for your letter of June 13, 1969 regarding the above application for permit.

The application by Mr. Stubing was filed on January 16, 1969 at the Regional Office of Fish and Game in Ray Brook. The original application has not been amended or revised in any manner nor has a new application been filed. However, the processing was delayed by the applicant in order to reconsider the proposal. He subsequently reactivated the original application with the request that the method of slope protection be revised from timber cribbing to stone riprap. However, no revised drawings or details of the proposed construction were submitted by the applicant.

It is anticipated that additional detail drawings will be submitted at the hearing on July 9, 1969 and also testimony to clarify the type and method of construction.

Very truly yours,

T. P. CURRAN  
Central Permit Agent

cc: Mr. D. Benson  
Mr. E. Dietsch
