Mr. Robert C. Stevens, Past President
Eagle Lake Property Owner's Association
One Green Ridge Road
Pittsford, New York 14534

Dear Mr. Stevens:

I am in receipt of your July 25, 1979 letter regarding your recent Eagle Lake Association meeting.

I am sorry you were embarrassed in finding out one of the summer residents had a water sample analyzed which contained some of the round floating objects which you described in your September 19, 1979 letter. Mr. Norvell of the Connecticut Agricultural Station could very well be correct in his analysis since he did examine the sample. Our interpretation of these objects was based solely on your description as we did not perform any laboratory analyses.

The Fish Management Unit does not get involved in water quality analyses and we will be unable to perform any evaluation of this nature. However, our Water Quality office here in Ray Brook does occasionally perform surveys similar to the kind you requested. Please contact Mr. David Fleury, Water Quality Unit, NYS-DEC, Ray Brook, N.Y. 12977. He should be able to help you.

Thank you for your interest and concern.

Sincerely,

David B. Smith
Conservation Biologist (Aquatic)
