Mr. Peter Flint,

Eagle Lake Association, Eagle Lake, N.Y.

Dear Sir:-

Your letter of Sept. 12 in regard to stocking Goosenock Pond with Brown Trout and the construction of a fishway at the lake outlet has been referred to me for reply. The portion of your letter relating to a fishway will be handed to the Inspector of Docks and Dams.

The Commission does not furnish yearling trout for stocking; an application blank is inclosed herewith. If you will fill it, and return it to the office a request for Brown Trout fingerlings in the season of 1913 will be favorably acted upon.

Very truly yours,

Conservation Commission.

By

Tarleton H. Bean,
Fish Culturist.

Final request for 3000 trout signed by members E.C. P.O.A.

Address all communications to the Conservation Commission.
