Mr. Luthy,
Yours of the 7th inst at hand
& contents noted. Also I think by this
time you have my answer to yours of the
2nd inst. I enclose copy of Flint's last
letter to me which I have not yet answered
probably will not for some time to come.
I shall also send copies to Hurd & FitzGerald.
The thing I shall tell Flint next time I
write him is, that I never even saw the
letter he has sent to Prop. Owners "at my request"
if I certainly did not give him any permis-
sion to send it out. No member of my
father's family either saw the circular or even
knew of it until I told them about it after
my receiving a letter from FitzGerald in
which he told me that Flint told him he
was going to send out a letter. At that I
did not know that my father name would
appear in the circular. If any of the donations
come to me, back they go to the donor as

st As I can send them. Flint got all
that was promised him & not another cent
ill I send him or cause to have sent him
their are Court Expenses which I must be paid
Edw. Rungz I shall certainly try to deal
directly with the Court and not let Flint
hold on the money - looks as tho he
might be could make a life's job out of it, pos-
sibly having visions of getting it carried to the
U. S. Supreme Court

Flint also sent me copy of his letter to you demand-
ing the \$20 from the M. S. & H. Co. Guess he needs
me money to get away from the Lake with
we far have heard nothing about the result of
the suit but will let you know just as soon as
I do. No doubt if the decision is adverse Peter
will take his own good time about letting me
know. This letter is personal & not for the
soc. files. With best regards to you & yours
Yours In haste
Albert Rungz
