Dear Mr. Lodge,

*(written)* Just a few lines to let you know what is going on at the Lake. About ten days ago I noticed that the water in the Lake was going down very fast. I went down to the foot of the Lake and to my surprise found that the dam has been torn out. I reported this matter to Abe Moore, Mr. Wicks and Al. Weed. They are going to get busy and see what can be done. The water has gone down over three feet and is still going down. Now Mr. Lodge, if this matter is not attended to and the dam replaced, it will affect the beauties of the Lake and be a damage to all the cottages on the Lake. Docks and Boat houses are useless unless moved.

Now we want you to co-operate with us and see if something can't be done. Would it not be advisable to go up to the Capitol and see the right party about it and ascertain if such a job is legal. It is said that a Mr. Newton and Mr. Wend of Ticonderoga have bought the Harris lot there at the lower end of the Lake. Mr. Newton is connected with the Ti Pulp and Paper Company. I suppose he is after the Pulp wood, but why he has destroyed the dam no one can explain. If you will find out what you can do, and let me know I will appreciate it. I know you are interested in more ways than one. You can imagine what over three feet of water means.

I hope you are well. I will keep you posted as well as I can about the matter. The Judge joins me in the best wishes.

Very truly,

(Signed) Cass B. Pease.

... against all the property owners on the Lake, many of whom are
