Mr. Edmund O. Luthy,  
P.O. Box 232,  
Cincinnati, Ohio.

Dear Mr. Luthy:

I wish to acknowledge receipt of your letter of November 22. I am much pleased to note that you are not discouraged by the uncertainty of results from experimental stocking with minnows. I hope that after a thorough trial of this venture is made in Eagle Lake the results of such plantings in other bodies of water may be foretold with some degree of certainty.

This is a very busy season in our office and I can take up this matter in detail to better advantage somewhat later. I shall answer your letter in full as soon as time permits.

Very truly yours,

*C. Willard Greene*

Aquatic Biologist.

*I have your letter of Nov 29 in reply to mine of Nov 22 & am glad that this is your busy season & that you will answer my letter in full detail & to better advantage later. I am in hopes that the Com. Dept & our association will be able to get together, co-operatively, in the coming Eagle Lake for the experimental stocking with minnows. I shall await your more definite reply to my letter of Nov 22, at your leisure.*

*Very yours*
