## EAGLE LAKE HOUSE

ON EAGLE LAKE

GEORGE A. HOUGHTALING, PROP.

Eagle Lake P. O., N. Y., 12/3/13 191

ms  
ms 5/13  
My dear Edmund:

Your second letter at hand and as  
is always the case I was glad to hear  
from you. First let me say that  
you very dear fellow was the first  
one of all that wrote to about the  
dam outrage - and as if some you  
never got that letter - I took it of  
mine and wrote you all of the particulars  
you were first in my mind and I  
wrote you first. S. G. Newton of the  
Ti. Paper & Paper Co is the man that  
did the work, and why he did it.  
No one can imagine.

Open ground. By the way

Mr. Mead also of the freight the Harris  
 got down this presumably for the  
 pulp work. As soon as Mr. Lodge got  
 very little he came up and went down  
 to the dam and all around the lake.  
 He met Wicks <sup>4</sup>/<sub>5</sub> at Wood in the  
 and now is understood as soon as  
 he (Mr. Lodge) hears from all the cottages  
 he and Wicks are going to start in  
 and see what can be done about it.  
 He has got the dam out clear down  
 to the bottom. The water has gone  
 down at least 3 1/2 feet half the  
 float houses and landings are useless  
 & can even right out in front of our  
 dock and landing. The old Harris cottage  
 docks - the Hard (Birchwood) dock and  
 float house - Lodge and the Moss girl  
 are useless. I am as mad as a  
 wet hen. Ed - I am not a land  
 owner but you lot - I love you

as soon as I learn I will let  
you know. It is reported that he and  
Mr. Wood also of the freight the Francis  
let down this presumably for the  
pulp work. As soon as Mr. Lodge got  
my letter he came up and went down  
to the dam and all around the lake.  
He met Wicks by Al Wood in the  
and now I understand as soon as  
he (Mr. Lodge) hears from all the College  
he and Wicks are going to start in  
and see what can be done about it.  
He has got the dam out clear down  
to the bottom. The water has gone  
down at least 3 1/2 feet half the  
float trams and Landings are useless  
I can walk right out in front of our  
dock and Landing. The old Francis College  
dock - the Ward (Birchwood) dock and  
float tram - Lodge and the Mossy  
are useless. I am as mad as a  
wet hen. Ed. I am not a land  
owner but you let I love you

Fearful little time as well as  
 anyone can. It is a d - dirty brick  
 and I want to see him cross up with  
 in good shape. I suppose he thought put  
 at this time of the year that was no  
 one up here. But he will find out that  
 I am alive yet. Say Edmund let me  
 advise you to visit Mr. Whites and urge  
him to get at the job in real earnest - he  
 is a little slow you know. I want this  
 man to be compelled to put the dam  
 back as before and <sup>forget</sup> a little thing  
 or two. Ed had friends. My eyes are bad  
 but I will try and write you and  
 keep you posted on this matter.  
 I hope you are well and that all of  
 you will enjoy a very Merry Xmas and  
 a happy New Year.

Your friend  
 Cass B. Pease

All O.K. at - Edmont - Cottage.  
 Cass
