 AND ALL KINDS OF HOUSE TRIM.

Cowardin Point, N.Y. Dec. 22, 1913.

Mr. W. S. Lodge,
Albany,
N. Y.

My dear Mr. Lodge:

Since talking with you in Albany the other day, I have had a talk with Mr. I. C. Newton over the telephone and he has invited me to call at his office sometime when his partner, Mr. Ferris, can be present, and go over the Eagle Lake matter. He says that he was advised by the State that the dam was in an unsafe condition, this advise coming from Mr. Sherman of the Conservation Commission, as I understand it, and that later Mr. McKim told him that the dam was better out than in. I will let you know more about it after I have had an interview with Mess. Newton and Ferris.

Wishing you the compliments of the season,

I am,

Cordially yours,

J. E. Pond
