

Mr. Edmund O. Luthy,
2419 Ohio Avenue,
Cincinnati, Ohio.

Dear Mr. Luthy,-

I have just received your letter of the 15th, and I should certainly be in favor of following your suggestion. *planting specimens*

I notice you speak about George or Alonson Moore. George is right there, and if it does not involve much work, just a matter of caring for it, I am only too happy to have you ask him to check up on the thing. He is very much interested in all that sort of work, and I am sure would be glad to do it.

We came back from the Lake last Wednesday, and I went to New York Thursday, driving down with Mr. Heard, who continued on his way to Virginia, and I came back here Friday night by train. I have no definite plans about going to the Lake again.

I notice that Mr. Ward has not been able to become elected yet, and hope he will have better luck before long.

I understand things in your State are pretty tight, and I do hope it won't be necessary to follow what was done in Michigan. The situation certainly doesn't look any too sweet.

With kindest wishes,

Sincerely yours,

ES/H
