

Mr. Eliot Spalding,
Shawmut Bank Building,
Boston, Massachusetts.

Dear Mr. Spalding:

This is in reply to your letter of December 18th.

In order to build a small dam to raise the level of the water in Eagle Lake it will be necessary for you to get a permit from the Conservation Department. I don't think you will have any trouble in securing such a permit.

If you will let me know just what you wish to do, I will try and secure the permit for you. In other words how much you wish to raise the level of the lake and how much of a dam it would require to do this.

Awaiting your reply, I am

Sincerely yours,

(Signed) Fred L. Porter
