TO ALL CONCERNED WITH THE FUTURE OF ROUTE 74:

You who attended the recent meeting at which the State displayed its plans for Route 74 know the threats that they pose to property owners along the present Route 74 and along the proposed routes on both the south and north sides of Paradox Lake. The invasion and taking of land could be extensive and the amount tentatively set for compensating land owners is pitifully small.

For the mutual benefit and protection of all who are concerned with the future of Route 74 we should band together. Only as a representative organization can we hope to exercise effective clout and safeguard our interests.

Therefore there will be a meeting Thursday, August 31 at 7:30 p.m. in the Paradox Community Center in Paradox to develop effective united action. It is important that YOU attend. Even though your property may not be on the present Route 74, you could be zapped by one of the proposed alternates. We urge your attendance.
