Dear Glenn:

Thank you for your letter of November 13, 1984 regarding the outlet dam on Eagle Lake in Essex County.

Our Engineering Unit will inspect the structure and prepare the necessary preliminary design analysis required to submit a Budget Request in the 1986-87 Capital Budget.

Until funds are appropriated and reconstruction is completed, our Regional Operations Unit will continue to maintain the structure.

Thank you again for bringing this matter to my attention,

Sincerely,

Henry G. Williams
