

This map was promulgated pursuant to Article 24 of the Environmental Conservation Law (the Freshwater Wetlands Act) on 4/26/89 by the Commissioner of the Department of Environmental Conservation. This map indicates the approximate location of the actual boundaries of wetlands regulated by the Freshwater Wetlands Act. Lakes and streams are shown for informational purposes only.

Wetlands shown on this map conform to the definitions in Article 27 of the Executive Law (The Adirondack Park Agency Act) and the Freshwater Wetlands Act. Certain activities in areas within 100 feet of the boundaries of wetlands are also subject to regulation pursuant to the Freshwater Wetlands Act and the Adirondack Park Agency Act.

Wetlands smaller than one acre that are located adjacent to a lake, pond, river or stream, and have free interchange of water with them at the surface, are also protected. In both mapped and unmapped wetlands, a permit is required for activities, such as filling, that impact on the wetland. Landowners should contact the Park Agency (518-891-4050) prior to disturbing any wetlands on their property. The Agency will determine whether a wetland is present and delineate the wetland boundary on any property at the landowner's request. This map will be amended as necessary to show any newly identified wetlands or to correct wetland boundaries.

Base map information was prepared by the New York State Department of Transportation and United States Geological Survey and is provided solely to assist the landowner to locate his property. Lake boundaries and stream locations have been adjusted in some cases based on 1976-1981 aerial photography. Marsh symbols () do not necessarily indicate the location of a wetland.

The Adirondack Park Freshwater Wetlands Maps are available at the Adirondack Park Agency office. Freshwater wetlands maps for local areas are also available for inspection at the appropriate County Clerk's and Town Clerk's offices.

LEGEND:

- approximate wetland boundary (shaded) 
- wetlands within shorelines of water bodies 
- lakes, ponds or wide rivers (hatched) 
- streams, rivers or linear wetlands (dashed) 
- uplands 

BOUNDARIES:

- State
- County
- Town
- City or Incorporated Village
- Federal-aid approved Urban Area
- Supplemental map enlargement limit

ROADS:

- Interstate route...  Divided highways:
 - Mail more than 25 feet ... 
 - Mail 25 feet or less ... 
- U. S. route ...  Undivided highways:
 - 4 or more lanes ... 
 - 2 or 3 lanes ... 
- State route ...  Private roads
- County Road ...  State Highway number and limit ... 8380

TICONDEROGA

Map published by the New York State Department of Transportation in cooperation with the U.S. Department of Transportation, Federal Administration, Bureau of Public Roads.

Physical and cultural details compiled from U.S. Geological Survey topographic maps, edition of 1953; highways and drainage features compiled from aerial photography dated 1969 and various other sources; road names and boundaries compiled from D.O.T. survey records.

Boundaries and features may not necessarily comply with National Map Accuracy Standards.

Changes in boundaries, names and planimetric features reported to: Map Information, New York State Department of Transportation, State Campus, Albany, N.Y. 12226

SPECIAL TOPOGRAPHIC EDITION
 Contour interval: 20 feet, shown unrevised from 1953. Datum is mean sea level.

QUADRANGLE LOCATION

Polyconic projection. 1927 North American datum.

5,000-meter graticule based on U.T.M. grid, Zone 18.

10,000-foot ticks based on New York State Plane Coordinate System, East Zone
