

### Fwd: Eagle Lake Beaver Permit

From: Chris Hyde [REDACTED]

To: [REDACTED]

Date: Friday, January 7, 2022, 02:09 PM EST

To the board :

Please see permit attached - CC to Michael for web posting -

Also we need to generate / forward any reports we can put together for the Beavers and VSA

Reply sent in separate email

Ben,

Thank you for the quick reply. I believe we have submitted reports in the past but I will check with other members of our board and be sure to get back to you with whatever we have. I will be out of town next week for business but I will let you know as soon as I can. We look forward to working with you as well.

Subject: Eagle Lake Beaver Permit

To: [REDACTED]

Hello Chris,

I'm Ben Thomas, the Supervising Forester in the Warrensburg DEC office. Tim Watson, one of our Biologists passed along your request for the permitting to remove beavers and associated dams on Eagle Lake outlet.

I looked over the information I have for your Volunteer Stewardship Agreement to familiarize myself. I also attached the current VSA to this e-mail for reference. Corrie Magee has moved on to another position and I'll be your point of contact until we have another person that we can assign to manage the Hammond Pond Wild Forest. After looking things over, I'm pretty sure I have a good understanding of the situation. One of the things that I could not locate were any completed Reporting Forms. Moving forward, please submit those to me by December 31<sup>st</sup> and if you have past forms that were already submitted I would appreciate it if you could send those along too for my records.

The attached permit is in my name and I have signed it. You may use this as my Agent to remove the beavers and their associated dam material. You must ensure that you, people covered in the Volunteer Agreement or a Hired Trapper have a copy of the pertinent permit when conducting this work and abide by all of the terms and conditions. Please also include a summary of any actions taken under these permits to the Reporting form that you'll be sending along to me.

Thank you and let me know if you have any questions. I look forward to working with you. Thank you also for your assistance with maintaining this dam and water level of Eagle Lake.

-Ben
