Hi All,

Just so that everyone is in the loop, Chris, Jeff and I have been in contact with each other over the past few weeks regarding Jeff's need to step away from his responsibilities of ELPOI Treasurer, this is do to an increase in his business responsibility. see email below

I have offered to take on the responsibility of interim treasure, unless someone else wants the position, whisper the words and it is yours. Chris has setup on line bank access as he has a branch down the road from his house, he and I will be working with Jeff in the transition of records. I have done some checking into the federal filing requirements and all the necessary information to complete this is on the federal web site as well as now having links on our website under the archives/financial records page, if someone else should need this, past filing records are also present here. I believe I heard that Rin might have offered to file for this year I will check/coordinate with him as necessary on this.

Please reply to Chris with questions and your acknowledgement for this change to the treasurers position

Jeff please send the records to

Rolf Tiedemann

Also while I have your eyes;

I took the opportunity while at the lake last week to meet with new Ti Supervisor Bill Grinell, Bill expressed his interest to make a supportive transition of support, Bill knows the lake and it conditions as a result of his having fished it many time over the years, I provided him with details of our most recent communications with the APA regarding their request for comment on the herbicide use document and history of how we got to where we are, I also indicated to him what our moving forward plan is, ie. treatment in and around Tibay and the beach (rough details for this provided to all of you in a previous email from Chris approx nov 3, 2013- more formal details in the next week from me).

The APA has released a "second draft" of their RASS "Use of herbicide guidelines" there are considerable favorable changes made in this document (see link below), while it is still my opinion that the NYS requirement/guides lines are sufficient, we might/should be able to work with-in these guidelines, APA is still in the drivers seat- our proposal as mentioned above, with APA review, will be the test. again details to follow.

There are several other items that Chris and I will be sharing with you over the next few weeks, both of us have some time between jobs etc. to work on these items

Subject: ELPOI

Hi Rolf,

Hope all is well. I didn't get up to the lake until Saturday, so I missed you. It sure was "heavenly" walking the lake on Sunday. The weather was delightful, in the 40 degree range. Thank you for assuming the responsibilities of treasurer. I've never been this busy in my career, and frankly, love it and hate it simultaneously.

What is an address that I may send a box of all documents surrounding ELPOI to? Everything is up to date, and I can talk you through any questions pertaining to this year.

I greatly appreciate your stewardship, and look forward to seeing you, Diane and the family this summer.

Best regards,
Jeff
