Bill

As the ELPOI closes its fiscal books for 2022 this June 30th, we would like to once again say thank you for allowing the ELPOI to share your internet bandwidth and for the occasional intrusions on your privacy that go along with equipment maintenance for this past year. Your donation allows the EL camera time lapse's to be viewed on the Eagle Lake website at eaglelake1.org. Based on the monthly stats reporter, our site continues month after month to attract some 800 plus page viewers, they are looking for all matters of information and come in from all parts of the globe. We assume, but are not able to track, that not only are the page lookers coming from far and wide but are hopeful that our local residents find value in the information posted.

At this time I would like to ask if you would consider supporting the ELPOI in 2022-2023 by continuing to support the items that you did this past year. In exchange for this we would like to offer you a complementary Property Owner dues membership for EL property short ID number 26

Please reply with a Yes or No and any other comments prior to July 9th our annual meeting date. If we hear back by this date we can give recognition for this contribution at the annual meeting.

Both the print and electronic version of the ELPOI newsletter will be arriving in the next day or so, please consider joining us at the annual meeting and social picnic that follow. Reserve the date July 9th at 10:00 am

Hopefully we can get together this summer for a cold one either at my place or yours.

Thanks also for your recent active involvement in the beaver/dam task. An at times thankless job but one that is critical to the lake community.

Rolf Tiedemann
ELPOI Treasurer

PS should you wonder what you place looks like from the other side of the lake, a quick lake "fix" camera image from a private lake camera taken 6-17-2022
