Bill

Great talking to you today.

Again thanks for allowing the ELPOI to share your internet band width during the winter to support the off premises web cameras. Thank you for continuing with this for the coming year. As in the past in exchange for sharing this we the ELPOI will comp you your membership for the year 2024-25. The cost savings for this sharing has been considerable over the past 5 plus years that you have done this.

the Web cams are one of the more popular search items on the web.

Also thanks for allowing me too disrupt your relaxing days and evenings to complete the occasional tech support at you house either as a solo or with your assistance when I'm am remote.

As I step back from my direct connection with the ELPOI the new Officers will need to consider what they wish to do with the Cameras and their or someone else support for them.

Hopefully we can get together next week, after the 4th.

Rolf
