As a result of the July 15, 1971 hearing at Schoon Lake it is recommended that all residents of Eagle Lake who do not want the present Route 73 widened to the detriment (and possible destruction) of the present residences and cottages along the road should write to:

Mr. Frank J. Fuller, Regional Director of Transportation
New York State Dept. of Transportation

and state that they wish to keep Eagle Lake and Route 73 as it is and that the new road should follow segment 5 on new location about one-half mile south of the present road.

All letters should be filed with the Department by July 29, 1971.
