June 20, 2007

Please accept the following documentation as our application to the NYS DEC 2007 Aquatic Invasive Species Eradication Grant Program. The Towns of Crown Point and Ticonderoga, by resolution, are working cooperatively together with the assistance from members of the Eagle Lake Property Owners, Inc. (ELPOI) on the Eagle Lake Eurasian Water Milfoil Eradication Project. The Towns are applying for the grant. If this project is selected to receive funding the applicant's ask that the Town of Crown Point administer these funds. The Town of Crown Point is currently administering funds from both a Senator Stafford's Aid to Localities Grant, which was awarded to the ELPOI in 2000 for milfoil control, and a 2007 Senate Initiative Grant awarded to cover the costs associated with obtaining the necessary DEC and APA permits and other such needs for localized use of an herbicide for control of Eurasian Water milfoil on Eagle Lake. Sharon Henderson, Legislative Aid to Senator Little, and Bill Preston, DEC Grant Coordinator, have both indicated that these funds can be utilized as a match for this eradication grant.

Thank you for your consideration of our application. We look forward to a positive reply and the next steps in the process. We are eager to continue our efforts started in 2005 and prior for milfoil eradication in Eagle Lake. With the aid of this grant we believe that some of the lakes impaired areas will be able to start to return to "normal".

Sincerely,

Dale French
Town Supervisor
Crown Point

Bob Dedrick
Town Supervisor
Ticonderoga

Rolf Tiedemann
Vice President
ELPOI
