Confirmation of Application

Your proposal is successfully submitted. No further action on your part is required. After a preliminary check for alignment with the Signature Causes and to ensure completeness and accuracy, your application is initially routed to the local International Paper facility for review. All applications received by the local submission deadline (*varies by location*) will be reviewed by the local review committee. Secondary reviews may also be conducted. Please contact the nearest facility you selected for more details about local submission deadlines and community guidelines. To print a copy of this completed application, click "File" then "Print" on your browser's toolbar.

Click [return to the Welcome Page](#) when you are finished.

Contact Information

- * Salutation Mr.
- * First Name Zachary
- * Middle Initial A
- * Last Name Dorfman
- * Contact Type Grant Writer
- * Address 338 Miller Road
 - * City Rexford
 - * State New York
 - * Zip 12148
- * E-mail Address zachary.dorfman@gmail.com
- * Telephone 518-763-6155 / 518-585-6562

Fax

Organization Information

- * Country United States
- * Legal Organization Name Eagle Lake Property Owners, Inc.
 - * Address C/O Rolf Tiedemann, Treasurer 358 Electric Ave
 - * City Rochester
 - State New York
 - * Postal Code 14613
 - * Telephone 585-647-2514
 - * E-mail Address zachary.dorfman@gmail.com
 - * Website Address Eaglelake1.org
- * Mission Statement Established in 1907, and incorporated in 1993, ELPOI is a not-for-profit organization that serves to protect the mutual interests of its property owners, and to maintain the environmental and recreational quality of Eagle Lake.
- * Key Programs The organization continues to meet and maintain the same objectives as established by its founders:
 - The re-stocking of Eagle Lake from state and local hatcheries.
 - The regulation and control of a uniform lake level.
 - The prevention of pollution of Eagle Lakes waters.
 - The protection of spawning beds.
 - The protection of the mutual interest and property of its members
- Does your organization collaborate with other charitable organizations? If yes, please explain.
 - Adopt A Highway (Route 74)
 - Chilson Volunteer Fire
 - A.E. Phelps Rescue

Adirondack Lake Alliance

Volunteer with DEC bureau of fisheries

Is your organization affiliated with or certified by a national or regional charitable organization (for example, Feeding America, the Campaign for Grade Level Reading, Food Banks Canada, Bancos de Alimentos de Mexico, etc.)? If yes, explain.

Proposal Detail

* Nearest IP Facility Ticonderoga, NY

* Project Title Eagle Lake Environmental Water Quality

* Request Date 08/25/2020

Contract/Agreement

* Project Start Date 01/01/2021

* Project End Date 12/31/2021

* Requested Cash Amount 800.00

* Currency Code USD - US Dollar

- * Previous International Paper Requests and Donations
 - **2019** \$700.00
 - **2018** \$0.00
 - **2017** \$0.00
 - **2016** \$0.00
 - **2015** \$0.00

Total \$700.00

Previous Request and Donation Summary 2019 We received a \$700 grant from IP for our ongoing environmental water quality program. Results of our efforts continue to be favorable, as indicated in the 2019 CSLAP water assessment. Quotes from that report can be found below:

Eagle Lake continues to be oligotrophic, or unproductive, based on moderate water clarity, low algae levels (chlorophyll a), and low nutrient (phosphorus) levels.

Soluble nutrients were analyzed again 2019.

Most of the nitrogen in the lake is soluble, indicating a potential for more algae growth.

The lake has

near neutral pH, intermediate hardness water, low water color, and low nitrogen levels.

Compared to other nearby lakes, Eagle Lake usually has higher water clarity.

Since 2000, deep phosphorus and conductivity have increased slightly, and water quality survey assessments have improved slightly.

Previous Request Detail

- [ELPOI IP grant photo.jpg \(2.15 MB\), uploaded by zachary dorfman on 08/25/2020](#)

* Does your organization need employee volunteers? If yes, please describe the approximate number of volunteers needed and the tasks for which volunteers are needed. The availability of employee volunteers varies by local facility.

Not at this time. All water testing is collected by ELPOI members and sent out to an independent 3rd party for testing.

However, we would be open to assisting our members collect samples during the summer of 2021.

* Do any current International Paper employees volunteer for your organization?

No

* Does International Paper have permission to use photographs, logos, published or printed information, and any other materials you supply in traditional and social media without further notice?

Yes

Proposal Narrative

* Proposal Budget (Specific to the project you want IP to fund)

- [IPF_Grant_Proposal_Budget_2020.doc \(37 K\), uploaded by zachary dorfman on 08/25/2020](#)

* Proposal Summary This grant application seeks funding to help support ELPOI's testing of environmental water quality. ELPOI continues to support the public outreach for education of lake issues and our ongoing efforts to monitor, maintain and document the water quality of Eagle Lake, which is located in the Towns of Ticonderoga and Crown Point NY.

* Proposal Detail The proposal is a request to assist ELPOI in covering the costs associated with the continued testing and monitoring of Eagle Lake waters in conjunction with NYS CSLAP (Citizen State Lake Assessment Program) and NYS FOLA (Federation of Lakes). This is a volunteer program, in which residents and members of ELPOI collect water samples over a 12 week period for testing, analysis and reporting performed at NYS DEC facilities. In addition to NYS CSLAP and NYS FOLA testing, ELPOI performs supplemental testing for Fecal and chemical analysis through the Darrin Freshwater Institute.

In addition to water testing, ELPOI maintains signage at both the boat launch and campground to communicate the importance of NYS DEC and APA's message of 'Clean, Drain, Dry,' which is a program to prevent the spread of invasive species which can contaminate water and affect water quality.

Both current and past water quality documentation is posted to our website where comparison can be made to the health of the lake. Additionally, lake monitoring and water quality is communicated regularly to the members of ELPOI via our newsletters.

* Expected Outcomes Water testing performed under NYS CSLAP and NYS FOLA as well as Fecal and chemical analysis will provide a snapshot of the health and environmental quality of the water in Eagle Lake.

Results will be communicated to ELPOI membership and available for the public to view via our website.

* Evaluation Current and past data from our water testing is reviewed by our board and posted to the ELPOI website. This is done in

conjunction with the historical review and comparison performed with the data received from the DEC CSLAP data and provides ELPOI with a yearly report that can be used to determine the health of the lake. ELPOI has a yearly meeting to discuss issues facing the lake. During this time the health of the lake is discussed including feedback from lake residents.

- * IP Funding Breakdown If we are fortunate enough to receive support from International Paper, we will use that funding for the following:

Water testing NYS CSLAP and FOLA \$550

Water testing Darrin Freshwater \$150 Signage and communication \$100

- * Current Funders Current funders for this proposal are the members of ELPOI through membership dues. Membership is voluntary.
